PROFESSIONAL EXPERIENCE

PHP Backend Developer & Engineer

CG BuildPro | 2025 – Present

- Develop and maintain PHP-based web functionality and backend systems.
- Work with PHP, MySQL and phpMyAdmin for backend development and database-related tasks.
- Troubleshoot and resolve website and backend issues.
- Contribute to the development and maintenance of web applications based on project requirements.
- Work across frontend and backend requirements when necessary.
- Collaborate on practical web-development projects and technical solutions.

Custom PHP WordPress Developer

PipeGuard | 2026

- Develop website pages and blog functionality using WordPress as the CMS.
- Build custom functionality using PHP rather than relying exclusively on visual page builders.
- Write and modify website code directly to achieve project-specific requirements.
- Develop and structure frontend pages for the website.
- Work with WordPress and custom PHP to create controlled and flexible website implementations.
- Prepare the website for eventual live deployment.

Front-End Developer

OpenMart | 2023 – 2025

- Developed websites and frontend interfaces using HTML5, CSS3 and JavaScript.
- Created responsive layouts and user interfaces based on client requirements.
- Troubleshot frontend layout, styling and JavaScript issues.
- Worked directly with clients to understand requirements and implement revisions.
- Built practical web solutions for local clients and independent projects.

Blogger

TheRainbow | 2022 – 2024

- Created, edited and published articles using WordPress.
- Managed website content and publishing workflows.
- Structured articles for web readability and user experience.
- Applied basic on-page SEO practices.
- Managed images, links, formatting and other website content.
- Maintained consistent publishing and website updates.

Media Assistant

Cathedral Media Center | 2014 – 2017

- Supported photography and video production activities.
- Assisted with video recording and photography assignments.
- Performed photo and video editing tasks.
- Supported digital media production and post-production workflows.
- Worked with media equipment and creative production requirements.
- Developed practical experience in visual storytelling and digital content production.
